Student Presentations – Joint Meeting with ASME and ASHRAE

**Monday, March 5, 2007
Dinner Meeting**

ABSTRACT:

University of Louisville students will give presentations on their current research and will be available for questions afterward.

MEETING LOCATION:

[University of Louisville - Vogt Building](#)

Meeting Agenda:

6:00 – 6:45 Dinner – Pizza and Soft Drinks in Room 311
6:45 – 8:00 Presentations in Room 311
8:00 Adjourn

There will be **no cost** for this meeting courtesy of the U of L Mechanical Engineering Department.

Please RSVP to Diane Jenne at djjenne01@louisville.edu or (502) 852-6331 in the Mechanical Engineering Department no later than Thursday, March 1. Members may arrive as early as 5:30 to pick up parking permits.

UPCOMING EVENTS/PROGRAMS:

Below is a list of upcoming meetings and events for 2006-2007. Please mark your calendars:

April 2 – Lunch meeting at the U of L Alumni Club
May 14 – Golf outing, location TBA

MESSAGE FROM THE CHAPTER PRESIDENT

By Joe Nitzken

Our next meeting on March 5th is held jointly with the University of Louisville Speed School Students and the ASME. As in past years the presentations will be held in the Vogt Building auditorium. Pizza and soft drinks are complimentary furnished by the students and faculty before the talks.

We particularly want as many ASHRAE members and associates to attend this meeting as possible. All members and associates will be asked to rank the student presentations on ballots provided that night. The Louisville Board of Governors then tabulates the votes to determine a winner for our Louisville ASHRAE Chapter \$500 cash scholarship. This is just another way our technical society can encourage growth in the fields of science and engineering. This is participation in our Louisville community.

The presentations are particularly valuable for any of you with a teenager or family member considering engineering as a career. While many factors affect the career choice a young person makes, I believe the focus and dedication shown by the students during these presentations provides excellent example to any young people attending. My son had attended the presentations for several years. He made his choice to attend Speed School based

on a number of issues, but I like to think the student presentations impressed him also.

Please come support the young and upcoming members of our technical community.

Last year's award presented to Angela Knight for her presentation on Head Injury Risk by Ray Beaufait.

2007 High Performance Sustainable Schools Workshop to Showcase Kentucky Schools
Sloan Convention Center, Bowling Green, Kentucky
March 6-7, 2007

FRANKFORT, KY: School superintendents, board members, facilities managers, architects and engineers are invited to attend the fifth annual Kentucky High Performance Sustainable Schools Workshop. The event provides school districts with valuable resources to help implement sustainable design in new construction and renovation projects, delivered by recognized experts in the field.

The workshop will feature a site visit to Alvaton Elementary School in Warren County, a high performance school which opened this school year. Also on the agenda is a presentation from the design team of the county's three renovated middle schools—all of which recently received the Energy Starq label for energy efficiency. This is an award achieved by schools that rank in the top 25 percentile of energy efficient schools in the nation.

Workshop sessions will provide detailed information on sustainability concepts, how these concepts enhance the learning environment and the steps to achieving high performance in new construction, renovation and operations.

School district personnel pay a reduced registration fee of \$50 for one day or \$75 for two days. The business and industry fee is \$125 for one day or \$200 for two days. Registration fee includes continental breakfast and lunch.

This workshop qualifies for EILA (Effective Instructional Leadership Act) credit from the Kentucky Department of Education and AIA continuing education unit credit. We have applied for school board member in-service credit. Certificates of participation will be provided to educators and architects who attend.
